DATE: 24TH DEC. 2021

Dear friends/colleague,

It gives us immense pleasure in inviting you to the upcoming CME in Anaesthesiology, organized by ISA Belagavi city branch & Department of Anaesthesiology, Jawaharlal Nehru Medical College, KLE Academy of Higher Education and Research, Belagavi. The event is scheduled on 24th December 2021 and the theme chosen for this scientific program is "Perioperative Organ Protection".

Perioperative mortality is considered the third-leading cause of death worldwide following cancer and ischemic heart disease. Although numerous preventive measures have been implemented during the past years, perioperative acute organ dysfunction or injury is a common complication and associated with an increased morbidity and mortality in the perioperative settings. The increasing complexity of surgical procedure and an aging population with more comorbidities is associated with a higher incidence of perioperative complications and a failure to recover. However, integrating patient and procedure related risk factors into an individualized perioperative strategy might improve patients outcome.

Hence the scientific deliberations in this year CME is aimed to provide mechanistic insight into acute organ injury and identification of novel therapeutic approaches for the prevention and treatment of perioperative organ injury.

Karnataka Medical Council has awarded 'One' credit hour for this academic event.

We on the behalf of organizing committee, welcome you to attend the CME and make it a grand success.
