

## B7 – AINHUM

**HISTORY:-** A man aged 36 years came to the hospital with history of burning pain in the little toe and a constricting band just posterior to the little toe.

**GROSS APPEARANCE:-** Specimen of small toe with superficial ulceration of the skin. There is a band like constricting groove at the metatarsophalangeal junction.

**MICROSCOPY:-** Ainhum (Note the line of demarcation).
